## **WARRANTY**

Sercomp products are designed, built and tested to exacting specifications. Our products are warranted against defects in material and workmanship for a period of 180 days from the date of original shipment. If any Sercomp product is found to be defective, Sercomp will, at its option, repair or replace the defective product or refund the original purchase price.

Sercomp also warrants that, subject to the conditions and limitations listed below, our products will not cause damage to printers and business machines. This warranty presumes that the product has been utilized as intended, under normal operating conditions as stated by the printer manufacturer, and that the printer has been maintained properly according to the manufacturer's recommendations. Sercomp will reimburse the customer for the cost of repair or for the replacement of the printer or business machine, at its option. Reimbursement is limited to the current market value of the equipment in question. We assume no liability for incidental or consequential damages that may arise from the use of our products.

The warranty requires that the reseller provide Sercomp with satisfactory written evidence that the failure was due to a defect in material and workmanship in the Sercomp product. The claim must be substantiated in writing by an authorized service agent on the service company's letterhead and signed and dated by the authorized service agent's representative. The defective Sercomp product must be returned to Sercomp. This warranty will be void if the product has been modified or tampered with by individuals not employed by Sercomp.

This warranty gives you particular legal rights. Those rights may vary from state to state within the United States of America. All other warranties, whether expressed or implied, are hereby negated and disclaimed, including warranties of merchantability or fitness for a particular purpose, as are claims for non-infringement.
